

House of Kangaroo, (800) 597-9091

Have you missed us?

We've been very busy:

- *moving to our new showroom*
- *sourcing new products*
- *working on subtle improvements to our core products.*

To that end, the new golf shoes are now available (in limited quantity) & we are introducing them with some very special pricing! (see next page for details)

New Men's Golf Shoes

The News:

Beautiful New Zealand wool:- Sharanel Sweaters & Scarfs for Men & Women have arrived!

We will be introducing some great news lines of product in the next few months!

Remember if you're in our database you're considered a loyalty member and can receive 25% off any kangaroo leather products and 10% off any non-kangaroo products!

Golf Tip

Our Golf Pro....

Chima McLean

The two hands have different roles when holding the club. I will describe this for the right hander (sorry lefties, you'll have to reverse it!). As the fingers get closer to the club-head, they will grip less tightly.

The left hand should hold the handle a bit firmer than the right (if 10 is "white Knuckle" tight, the left is 7 out of 10, and, 6 out of 10 for the right). The last 3 fingers of the left hand have the tightest grip on the handle, the forefinger and thumb just a little less.

The right hand grips the handle a little softer to allow for a better hinge. Assuming that the pinky is either interlocked or overlapped, the 2 middle fingers have a significantly tighter hold on the club than the right forefinger and thumb. The trigger finger and thumb on the bottom of the club are just along for the ride-do NOT squeeze the handle with them!
