

Recent Customer Testimonials

"I have been playing golf for 25 years and recently been playing in excess of 50 games per year. I have tried many golf gloves and in the last couple of years I have only used Kangaroo leather golf gloves. They are extremely thin and flexible and most importantly last much longer than any other glove I have tried. Try it... you will be pleasantly surprised".....**Michael Stedman**

"I wish to write to you today to talk about the performance of your silicone palm pattern golf gloves. As an avid golfer in the GTA / Toronto area, I play approx. +100 rounds per year to an 11 handicap. I am very hard on the products which I use and have been very impressed with your product. The integration of the silicone surface makes good positive contact with any type of grip and surface. This is consistent even in rain conditions and high humidity. Thank you for offering such an outstanding and durable product.".....**Brett Stegmaier**

"Just wanted to drop you a note to let you know how much my wife and I enjoy your Kangaroo leather golf gloves and shoes. We have been using your golf gloves for a few years now and find them to be much more durable and comfortable than any other golf gloves we've ever used. In addition to the durability we love the thinness and feel they provide. In fact I used one glove for 48 rounds in Florida this past winter before it finally gave out.

Your golf shoes are amazingly comfortable. My wife and I each bought a pair and the first time we wore them on the course we both had the same experience. "Wow these are like wearing bedroom slippers on the course they are so light and soft". Goodonya!".....**Pat & Sandra Thody**

"I purchased my Saddle Briefcase in 2005, and since then it has traveled to each province in Canada, throughout the United States, to Hong Kong, England and France - not to mention the daily commute. After all that, it still looks brand new. I highly recommend it!"**Geoff Ritcey**

From Chris Gallow, Canada' Premier Golf Photographer.....

House of Kangaroo was been extremely gracious with providing me the chance to try their golf products. I am now on my second pair of shoes which have performed beyond my expectations. Right out of the box you can walk 18 holes with no discomfort at all. The Leather is unlike anything I have worn before, soft tough and supportive! I have bad knees so support is mandatory; these shoes provide the support, then mold to your feet. In wet weather you will love these shoes, no wet feet anymore! I played for 10 days in Scotland with out one wet sock!

Gloves, now I love them more than the shoes. My first glove took the beating of 35+ rounds before I had to change to a new one. The Leather is so thin; giving the added soft hands touch needed for the short shots, but also provides the grip when you're in the rough. The Ultragrip gloves are incredible! If you chose to wear one on each hand you feel like you could climb a building with these on, never again will the wet weather get in the way of your grip.

That said I will never wear any glove beside the House of Kangaroo glove. There is no other glove on the market that can touch it in my eyes.

House of Kangaroo..... keep up the great work!
